This certificate program provides the essentials for clinical management of cardiovascular disease and diabetes by licensed pharmacists. In addition to providing a strong knowledge base of disease pathology and clinical manifestation, the most recent clinical guidelines, and pharmacotherapeutic recommendations, the P^3 Process of Care provides a proven framework for pharmacist as they engage in patient- centered Comprehensive Medication Therapy Management in any confidential counseling setting. Pharmacists completing this certificate will be equipped to provide care for patients with cardiovascular disease and diabetes, and will have the assessments and patient education tools to enroll patients upon completion.

Course Titles	Hour(s)
• The P^3 Process of Care: Comprehensive Medication Therapy Management	1
• Toolkit for Community Pharmacists to Improve Patients' Cardiovascular Health	2
• Blood Pressure Control: Pharmacist-delivered Medication Management Strategies	3
• Pharmacologic Management of Dyslipidemia: Assessment and Treatment	2
• Pharmacotherapeutic Management of the Post-MI and Post-Stent Patient	1.75
• Management of Diabetes: The Disease, Medications, and Clinical Management	2
• Tobacco Cessation: Pharmacist Impact Through a Brief, Targeted Intervention	3
• Motivational Interviewing: What you Don't Know About Patient Non-Adherence	1

This program is offered asynchronously through the CIPS Knowledge Enterprise at: www.pharmacists4knowledge.org

Successful Completion: The participant must complete all practice based activity components including the audiovisual presentations, post-test, and Activity Evaluation. Participants must receive a score of at least 70% on the post-test in order to receive credit. The post-test may be taken up to three (3) times. A link to the Activity Evaluation will be available on the confirmation once a learner has successfully completed the post-test. Statements of CE Credit will be available electronically via CPE Monitor within sixty (60) days of completion of the activity.

Conflict of Interest Disclosure: In accordance with the University of Maryland School of Pharmacy Policy on Conflicts of Interest, faculty certify that they had no potential conflicts of interest while developing the materials for this program.

Use of Trade Names: The trade names provided for the drugs and delivery systems in this module are for the purpose of product identification. The developers of this activity do not intend to imply endorsement for any commercial products discussed.

Resources Disclosure: Resources are provided for the educational benefit of our learners.

Technology Requirements: To access the course materials, you must use a computer with an internet connection and an online browser that supports the Adobe® Flash® Player version 10. Mozilla® Firefox, Windows Internet Explorer 9 or higher, or Apple® Safari® for desktop are acceptable browsers.

Privacy and Confidentiality: The Center for Innovative Pharmacy Solutions (CIPS) is committed to protect the privacy of our learners; CIPS complies with federal regulations regarding privacy and confidentiality. Email addresses may be used periodically to update learners on course offerings and new learning resources. Certain personal information will be provided to the ACPE in order to issue Certificates of Credit. No personal information will be sold to third parties. Your Activity Evaluation responses will be analyzed in aggregate.

Copyright: All information and materials provided are the property of and have been prepared by the University of Maryland Baltimore or have been granted permission for use by the copyright owner. No portion of this module may be reproduced or transmitted without written permission from CIPS. All rights reserved.
